

ALEC GORGE

14051 Brookstone Drive, Carmel, IN, 46032

Cell: (317) 660 – 1793 | Home: (317) 575 – 6224 | Email: alec@ramblingwood.com | Website: ramblingwood.com

SUMMARY

High school student with extensive experience and knowledge in web development, mobile development and server management. Operates own business primarily focused on web and iPhone development, working with clients from idea to specification to completion. Experienced with a wide variety of programming languages, programming techniques and methodologies, and development environments.

SKILLS

- Web development utilizing responsive design.
 - PHP 5, HTML5, SQLite, MySQL, CSS3, Apache, Nginx
 - Node.js, Javascript, jQuery
 - WordPress plugins and themes
 - Mobile device friendly
- Developing beautiful, user-friendly and natural iPhone apps.
- Architecting client-server interactions and API endpoints for maximum security, efficiency and ease of use.
- Very strong desire to learn and grow. Experiments and open source projects available at: <http://github.com/alecgorge>

EXPERIENCE

RARE BIRD, INC. (SUMMER 2011) rarebirdinc.com

Worked as a web development intern working on client projects and developing in-house tools.

- Designed and developed mobile and tablet interface for Harvard Medical School's Health newsletters.
- Built new online interface and an iPhone app for the internal time-tracking tool.

RAMBLINGWOOD (2007 – PRESENT) ramblingwood.com

Completed more than 16 unique projects (see portfolio online), often creating a first website for a small business.

- Example: designed and built custom theme; created WordPress blog and matching theme; built custom software (similar to a digital gradebook) for consultant to track his client's progress (catalystoc.com).
- Created *Adminium*, an iPhone app for managing and controlling multiplayer servers for the game *Minecraft*. More than 1400 copies sold. 5-star rating in the App Store (adminiumapp.com).
- Paid to write two articles regarding jQuery usage and iPhone development (Envato Network: <http://bit.ly/1UsX4m> and <http://bit.ly/akrep3>, respectively).
- Created innovative program that packages PHP scripts with the PHP runtime into a single executable.

OTHER

- Net Literacy volunteer (2009 – present) and Student Board Member (March 2011 – present)
- Earned Eagle Scout rank in the Boy Scouts of America in August, 2010
- Senior at Brebeuf Jesuit Preparatory School, Indianapolis, Indiana, cumulative GPA of 3.72
 - Completed AP Computer Science and Independent Study in Computer Science
